Nisha

Research Data Analyst | Python | Web Extraction | Data Cleaning

nishrajput2313@gmail.com 7379927840 Kanhai, sector=45,Gurugram LinkedIn GitHub

SUMMARY

Student of BCA (CGPA 9/10 in 5th semester) with hands-on expertise in web data extraction, cleaning and geocoding using Python and internships in Full Stack Web Development. Developed and deployed a Python project for extracting public data, removing duplicates, validating data, mapping each entry, and calculating distance between them, with documentation of all steps and issues regarding data quality. Using AI to learn and organize information, verifying the data before dissemination, and writing documentation. Looking for a Research Data Analyst position.

PROFESSIONAL EXPERIENCE

Full Stack Web Development Intern : Cybethix 06/2026 – 07/2026 | Gurugram,India

- Worked on the design and implementation of frontend and backend components of a web application using HTML, CSS, JavaScript, Node.js, Express.js and MongoDB.
- Debugged various problems within the application and provided documentation for the same to the mentor.

EDUCATION

Bachelor's of Computer Application. 2024 – 2027 | Gurugram
DPG Institute of Technology and Management.

Senior Secondary 2022 – 2023 | Kanpur
Prabhat Senior Secondary School

PROJECTS

Gurugram Mall Location Dataset 10/2026
Python, Pandas, BeautifulSoup

- Developed a workflow in Python to scrape data on malls from an open webpage, extracting 23 records.
- Scrubbed and deduplicated the dataset (from 23 to 20 records).
- Geocoded 19 out of 20 locations using the OpenStreetMap service.
- Measured distances from the reference point using Haversine's formula, filtered the records by distance (less than 5 kilometers).

Lost and Found Portal 06/2026 – 07/2026
Web Development Internship Project.

- Created a full-stack web portal for managing lost and found items using Express.js REST API and MongoDB as database.
- Implemented a verify based claiming process where lost items would be only returned to verified users.
- Technology used: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB

Personal Portfolio 08/2026

- Created my personal portfolio to showcase my skills and abilities . HTML, CSS , JavaScript

SKILLS

Dataset & Automation
Python | Web Scraping | BeautifulSoup | Reusable Scripts

Data Cleaning & Analysis
Pandas | Data Cleaning | De-duplication | Data Validation

Geospatical Basics
Geocoding (OpenStreetMap) | Distance Calculation

Programming & Tools
Python, C++, java, VS code, MS Office , GitHub, Canva

AI Tools & Soft Skills
Claude | Attention to Detail | Logical Thinking | Clear Written English | Documentation

Databases & Web Development Technologies
MYSQL , MongoDB , HTML , CSS , JavaScript, Node.js

CERTIFICATES

- Python Programming : Red Hat
- Full Stack Web Development : IBS SkillBuild
- Cyber Security Essentials : Cisco Networking Academy
- Digital Marketing Training : NIIT Foundation

AWARDS

- 2nd Position - Innovative Idea Competition, Science Day, DPG ITM
- 3rd Position - Best Out of Waste Competition, Engineering Day, DPG ITM

LANGUAGES

- English
- Hindi
